Exim India @ 45

CTL BHP 2025 will be held in the backdrop of *Exim India* completing over 45 years in the service of the maritime and logistics trade, with its **pan-India network**, chronicling the growth and success of this key sector since it was a minor player in India's economy, to today becoming one of the main drivers of the country's growth story. We are proud of our legacy of bringing to a wide readership, both in India and abroad, the triumphs and tribulations, accomplishments and occasional failures, the people and technological advancements in this sector. The gradual progress over the years from bulk to containers, manual to digital, publicly-held to privately owned, wholly government-led to PPP - we have covered them all. Today, as the Indian economy touches new heights, and infrastructure and logistics attain never-before-seen momentum, we continue to do our job of reporting the facts, and figures, as always. It will remain our enduring legacy.

the essential role of the fraternity in facilitating international trade and economic growth. One can look forward to all connected with cargo, transport and logistics coming together on a single platform.

The event is especially witnessing tremendous overseas interest - among exhibitors, those wanting to be part of the concurrent conference, as well as visitors. Booth booking has already gathered pace, with a significant percentage coming from abroad.
